Professional Summary

Strategic Data Analyst and Compliance Specialist with 4+ years of experience building analytics ecosystems that power real-time decision-making, grant compliance, and cross-functional impact. Proven track record designing scalable infrastructure, launching centralized reporting systems, and driving data culture across 40+ organizations. Skilled in transforming complex datasets into intuitive dashboards, predictive models, and actionable insights for leadership teams. Passionate about aligning data strategy with business goals to deliver measurable outcomes.

Professional Experience

Data Analyst and Compliance Specialist

May 2023 – Present

Goodwill Industries International

Maryland, USA

Tools: CaseWorthy, Power BI, SQL Server, Azure, Python (Pandas, NumPy, Scikit-learn, re, datetime, pyodbc, matplotlib)

- Spearheaded data quality governance for 16 grants across 40+ Goodwill sites, ensuring 98%+ accuracy through rigorous audit workflows and validation protocols.
- Engineered a centralized data lake integrating CaseWorthy with Power BI, decreasing reporting lag by 30% and enabling real-time insights across leadership and program teams.
- Delivered executive-ready dashboards used by 8+ mission teams to monitor placements, benefits, and goal progress across grant programs that enabled tracking of placements, benefits, and retention across multiple funding streams.
- Authored 5+ data dictionaries, rulebooks, and user guides adopted across the national network to standardize intake and reporting.
- Facilitated hands-on data literacy training for 20+ case managers, resulting in a measurable boost in accuracy and data completeness.

Financial & Economic Analyst Intern

May 2022 – Aug 2022

Murrow Capital

Washington, DC

Tools: Python (Pandas, NumPy, itertools, matplotlib, datetime, interpret, sklearn, xgboost, requests, time, newspaper, tldextract, nltk, re, string, textblob), SQL, AWS, Power BI

- Developed a predictive investment model using ML algorithms that outperformed industry benchmarks by 103% over 10 years.
- Applied sentiment analysis on 250+ ESG firms to construct impact-first portfolios, enhancing social and financial performance.
- Built interactive Power BI dashboards to visualize portfolio trends, enabling better quarterly decision-making for analysts.

Data Science Consultant Intern

Jan 2022 – May 2022

World Wildlife Fund

Washington, DC

Tools: Python (Pandas, NumPy, Sklearn, urllib, warnings, nltk, re, pyodbc, scipy, BeautifulSoup, h2o, surprise), MySQL, Tableau, SAS360(EDW)

- Created 3 recommendation models using web-scraped data from 250+ species pages, increasing visitor retention by 20%.
- Presented ML-driven engagement insights to the WWF data team and program faculty, including professors and department heads, as part of a practicum curriculum project; translated model outcomes into strategic engagement recommendations.

Data Analyst

Mar 2020 – Jul 2021

Scalend Technologies (Incubated by PayPal India)

Bangalore, India

Tools: Python, JavaScript, Azure, MySQL, Google Analytics

- Architected and launched 100% of core product features for a SaaS-based analytics platform used across client portfolios.
- Led a web development team launching 20+ websites and 117 optimized pages, increasing search visibility by 45%.

Early Career Experience - Web Developer

Opel Constructions

Sep 2017 – Mar 2020

Visakhapatnam, India

Built and maintained custom web applications and collaborated with business teams to support long-term growth.

Education

Master of Science in Business Analytics

The George Washington University, School of Business | Washington, DC | Aug 2021 – May 2023

GPA: 3.56

Relevant Coursework: Decision Models, Data Management, Machine Learning, Data Visualization, Digital Analytics

Bachelor of Technology in Computer Science & Engineering

Amrita Vishwa Vidyapeetham, School of Engineering | Coimbatore, India | May 2013 – May 2017

GPA: 3.82

Technical Skills

- Programming Languages: Python, R, SQL, C, C++, Java, HTML, XML, Spark, Hive
- Statistics: Time series forecasting, ARIMA
- Machine Learning: Sensitivity Analysis, Classification, Regression, Clustering, PCA, CNN, RNN, GLM, GBM, EBM, Sentiment Analysis, NLP
- Data Visualization: Tableau, Power BI, SAS Viya
- Platforms & Tools: Jupyter Notebook, AWS, Azure Data Studio, Google Collaboratory, R-Studio, Microsoft Excel, GitHub, Anaconda
- Databases & Methodologies: Spark, Snowflake, Postgres, SQL Server, Hadoop, Agile, Scrum, Waterfall, Iterative
- Certifications: Google Data Analytics Professional Certificate, IBM Data Warehouse Engineer Professional Certificate, Google Analytics Individual Qualification, Visualizing Citi Bike Trips with Tableau, IBM Full Stack Developer Professional Certificate

Projects

Dimensional Modeling and Analytical Analysis of COVID-19 Data (Dec 2021)

Tech Stack: Spark SQL, AWS, Python, GitHub

- Wrangled and scrutinized JHU COVID-19 time series dataset; performed regression analysis and created data visualizations, yielding actionable insights.

NLP Text Summarization (Nov 2022)

Tech Stack: Python, Google Collaboratory, GitHub Built advanced NLP models (BERT, GPT-2, XLNet)

- Implemented advanced NLP models, including BERT, GPT-2, and XLNet, to summarize large text documents and extract essential information with improved efficiency and accuracy.
